We are inviting you to join us on the Project FORTIC conference & Annual EFFORTS Congress!

The conference will be held on the most beautiful and unique location at the Educational campus on St. John's Fortress that offers you accommodation during the conference!

The Campus is hidden in the middle of St. John's Fortress, the largest of the three land fortresses in Šibenik and the last one renovated in 2022. St. John's Fortress was built in only 58 days by the citizens of Šibenik, right before the Ottoman attack in 1646.

It is recognizable by its shape consisted of two parts – the southern or upper part in the shape of a star and the northern part in the shape of pliers where the campus is situated.
